Dr. Roberto **Ferro**

Dr. Lorenzo Franchi

Lorenzo Franchi completed his PhD in preventive orthodontics in 1997 (University of Florence, Italy). He is presently Assistant Professor at the Department of Orthodontics of the University of Florence, Italy, and "Thomas M. Graber Visiting Scholar", Department of Orthodontics and Pediatric Dentistry, School of Dentistry, The University of Michigan, Ann Arbor.

Dr. Matteo Beretta

Degree in Dentistry in 2001, University of Parma, graduate at the Tweed Foundation for Orthodontic Research (Tucson, Arizona, USA) in 2004, specialization in Orthodontics in 2005 and Master in Digital Dentistry in 2015, University of Insubria, Varese, Italy. He is dedicated exclusively to orthodontics, oral surgery for orthodontics and pediatric dentistry. He collaborated since the beginning of the profession with Dr. Claudio Lanteri (Past President of the Italian Society of Orthodontics, SIDO), with whom he contributed to the new systematic for palatal expansion using the Leaf Expander (by Leone, Florence, Italy). He is Assistant Editor and scientific reviewer for the European Journal of Pediatric Dentistry. He is active member of the Italian Society of Orthodontics (SIDO) and Digital Dentistry Society (DDS), the Italian Academy of Lingual Orthodontics (AIOL), the Italian Society of Pediatric Dentistry (SIOI) and he is Digital Master for orthodontics of the scientific committee for the Digital Dentistry Universe project.

Dr. Roberto Ferro

Degree in Medicine and Surgery, specialization in Dentistry and Orthodontics, Director of dental U. O.A at the ASL 15 Unit of Alta Padovana and regional center of Veneto, Italy, specializing in the study, prevention and treatment of oro-dental diseases. President of EADPH (European Association of Dental Public Health) for the biennium 2000-2001, President of SIOI (Italian Society Pediatric Dentistry) for the biennium 2010-2011. Co-author and/or author of over one hundred scientific publications, one monograph and two scientific texts. Author of the book "Semeiotica ortodontica in dentatura decidua".
